

Cardiovascular Imaging in Computed Tomography Summit

2019. 5. 25(Sat.) ~26(Sun.)

Konkuk University Hospital, Seoul, Korea

www.civics-heart.org

Meeting Information

Date : 2019. 5. 25 (Sat.) ~ 26 (Sun.)

Place : Konkuk University Hospital, Seoul, Korea

Hosted by : CIVICS 2019 Organizing Committee

Sponsored by : Society of Cardiovascular Computed Tomography (SCCT)

Asian Society of Cardiovascular Imaging (ASCI)

North American Society for Cardiovascular Imaging (NASCI)

Korean Society of Cardiovascular Imaging (KOSCI)

Official Language : English

Invited Speakers

Plenary Speaker I.

Present and future of cardiac imaging from Leaders

Charles White, MD, FNASCI

Chief, Thoracic Imaging
Vice Chairman, Clinical Affairs
University of Maryland
2018 Past president of NASCI
USA

Plenary Speaker II.

Present and future of cardiac imaging from Leaders

Suhny Abbara, MD, FSCCT

UT Southwestern Medical Center
President of SCCT
Editor, Radiology: Cardiothoracic Imaging
Editorial Board member, Journal of Thoracic Imaging
USA

Bin Lu, MD

Fu Wai Hospital, Peking Union
Medical College & Chinese Academy of
Medical Sciences
Co-Director, SCCT China IRC
CHINA

Teruhito Mochizuki, MD

Ehime University Graduate
School of Medicine
Chair, Japan Society of
Cardiovascular Radiology
Chair, SCCT Japan IRC
JAPAN

Yining Wang, MD

Peking Union Medical College
Hospital
CHINA

Pre-Online

Registration will open
on April 8(Mon.).

Check your benefits
on our website -
www.civics-heart.org

Jung Im Jung, MD, PhD

The Catholic University of Korea,
Seoul St. Mary's Hospital
2018 Past President of KOSCI
Editor-in-Chief,
Journal of the Korean
Society of Radiology
KOREA

Yeon Hyeon Choe, MD, PhD

Samsung Medical Center
Editor-in-chief,
Korean Journal of
Radiology
KOREA

Hyuk Jae Chang, MD, PhD

Severance Hospital
Editor, Journal of Cardiovascular
Computed Tomography
KOREA

PROGRAM

Date	Time	Session & Lecture Title
May 25 (Sat.) Day 1	08:40 - 10:20 (100mins)	Session 1. From request to image presentation (Korean Language)
	08:40 - 09:00	HR control, patient preparation before cardiac CT
	09:00 - 09:20	CT acquisition and effective reconstruction
	09:20 - 09:40	CT interpretation : challenges and pitfalls
	09:40 - 10:00	Practical use of CT results which discrepant the clinician's suggestion
	10:00 - 10:20	Panel Discussion
	10:20 - 10:40	Intermission
	10:40 - 10:45	Opening Ceremony
	10:45 - 11:55 (75mins)	Session 2. Present and future of cardiac imaging from Leaders
	10:45 - 11:10	Plenary Session I : Free Topic
	11:10 - 11:35	Plenary Session II : Cardiac CTA for acute chest pain
	11:35 - 11:55	Panel Discussion
	11:55 - 12:20	Luncheon Symposium - Cardiac CT application using multienergy CT: Philips
	12:20 - 13:30	Lunch
	13:30 - 15:10 (100mins)	Session 3. Diagnostic paradigm for stable chest pain: Debate session
	13:30 - 13:50	Superiority of cardiac CT for evaluating stable chest pain: radiologist's view
	13:50 - 14:10	Superiority of cardiac MR for evaluating stable chest pain: radiologist's view
	14:10 - 14:30	Superiority of nuclear imaging for evaluating stable chest pain: nuclear physician's view
	14:30 - 14:50	Superiority of invasive coronary angiography for stable chest pain: interventionist's view
	14:50 - 15:10	Panel Discussion
15:10 - 15:30	Intermission	
15:30 - 17:10 (100mins)	Session 4. Expanded role of cardiac CT beyond the coronary artery imaging	
15:30 - 15:50	Impact of fat (epicardial fat, pancreatic fat, etc) for coronary atherosclerosis: according to the cardiac CT study	
15:50 - 16:05	Clinical impact of PFO: Diagnosis and treatment	
16:05 - 16:20	Role of CT for PFO and variants: Diagnostic pitfalls and DDx (ASD, septal pouch, etc)	
16:20 - 16:35	Role of CT for CMP	
16:35 - 16:50	Pitfalls and strength of TEE and CT guidance of LAAO	
16:50 - 17:10	Panel Discussion	
May 26 (Sun.) Day 2	08:40 - 10:20 (100mins)	Session 5. Challenging of cardiac CT: Calcium
	08:40 - 09:00	CACS in 2019: overall review of update of CACS and guideline
	09:00 - 09:15	Coronary calcium on non-ECG gated CT
	09:15 - 09:30	Calcium in coronary intervention
	09:30 - 09:45	Aortic valve calcium: hemodynamics and functional change
	09:45 - 10:00	CT quantification of non-coronary calcium
	10:00 - 10:20	Panel Discussion
	10:20 - 10:40	Intermission
	10:40 - 12:20 (100mins)	Session 6. Hot issues in cardiomyopathy
	10:40 - 11:00	Differential characteristics between ATTR and AL amyloidosis: symptom, imaging and prognosis
	11:00 - 11:20	Inherited metabolic disorders and CMP: Fabry and Mitochondrial myopathy
	11:20 - 11:40	Differentiation of CT/MR imaging of end-stage HCM, cardiac sarcoidosis and myocarditis
	11:40 - 12:00	Role of nuclear imaging of infiltrative CMP
	12:00 - 12:20	Panel Discussion
	12:20 - 13:20	Lunch
	13:20 - 15:00 (100mins)	Session 7. Value of a multimodality imaging approach for infective endocarditis
	13:20 - 13:40	Echocardiographic evaluation of infective endocarditis: the power, possibilities, and pitfalls
	13:40 - 14:00	CT (and MR) for assessing paravalvular anatomy and complications in infective endocarditis
	14:00 - 14:20	Nuclear imaging in "possible" IE and suspected cardiac device Infection: ready for prime time?
	14:20 - 14:40	What is needed for planning surgical strategy for infective endocarditis?: a surgeon's perspective
14:40 - 15:00	Panel Discussion	
15:00 - 15:10	Intermission	
15:10 - 16:15 (65mins)	Session 8. Latest advances on cardiovascular CT: editors perspective	
15:10 - 15:25	Radiology: Cardiothoracic Imaging	
15:25 - 15:40	Korean Journal of Radiology	
15:40 - 15:55	Journal of Cardiovascular Computed Tomography (SCCT)	
15:55 - 16:15	Panel Discussion	

* The above program will be subject to change
